- (ii) the competent authority may grant exemption in respect of any mine, on production of a certificate from the Chief Inspector of Mines that its productive capacity will be exhausted within the next three years, subject to such conditions as the competent authority may specify regarding the provision of alternative bathing facilities of a temporary character;
- (iii) in a mine with more than one opening, the owner, agent or manager may instal more pithead baths than one, provided that the total number of shower baths installed and of latrines provided shall not be less than that prescribed in rule 4; and
- (iv) if the competent authority is satisfied that no inconvenience will be caused to persons employed in the mines if a single pithead bath is provided to serve neighbouring mines of category ‘A’ or ‘B’, he may authorise the owners of such mines to provide a single pithead bath to serve such mines, which together shall, for the purpose of rule 4, be deemed to be a single mine with an average monthly output equal to the combined average monthly output of the individual mines.

**4. Scale of shower baths and sanitary facilities.**—(1) Every pithead bath shall be provided with shower baths and sanitary latrines on the following scale:—
